STRADA-IP-2X6

Standardized 2X6 modules with integrated silicone gasket

STRADA-IP-2X6 family consists of 173 x 71,4 mm lens modules with a wide range of highly efficient street lighting beams. Up to IP67 lenses with an integrated silicone gasket ensure ingress protection against water and dust allowing them to be used without protective covers. The lens modules are mounted with 8 screws and have enough space for luminaire components.
